Areas of Expertise

Fullstack developer

Network Technician

IT Support

Graphic and UI/UX Designer

Professional Summary

Full-stack developer skilled with Node.js, Express, React/Vue and MongoDB/Postgres; delivered multiple end-to-end client projects and production-ready prototypes with a strong focus on frontend performance and reusable component architecture. Graduated Diploma II (summa cum laude) from Akademi Komunitas Negeri Putra Sang Fajar and currently pursuing a Diploma IV in Software Engineering at Politeknik Negeri Malang.

Professional Experience

Network technician, mitra media prima, Blitar City

JAN 2022 — JUN 2022

Installed, configured, and maintained LAN/WAN equipment (routers, switches, firewalls); performed daily network monitoring and troubleshooting to resolve connectivity and performance issues. Implemented network documentation and basic automation for routine tasks, improving incident resolution efficiency and supporting cross-team technical needs.

Frontend developer, Blitaris Tekno, Kanigoro,Blitar Regency

JAN 2026 — FEB 2026

Developed responsive, accessible web interfaces using modern JavaScript frameworks and component-based architecture; implemented reusable UI components, ensured cross-browser compatibility, and optimized client-side performance. Collaborated with designers and backend engineers to integrate RESTful APIs and deliver a production-ready prototype within the project timeline, and documented components for ongoing team use.

FullStack Web developer , Freelance, Malang

JAN 2026 — PRESENT

Design and build full-stack web applications using Node.js, Express, and React/Vue; design RESTful APIs, implement databases (MongoDB/Postgres), and integrate third-party services (payments, authentication). Delivered 4+ client projects end-to-end, improved client site performance and user engagement, and provided ongoing maintenance, testing, and documentation.

Graphic Designer & Digital Printing Operator, Kenia Photo, Blitar Regency

JAN 2023 — DEC 2023

Created graphic designs and operated digital printing equipment, ensuring print quality and timely order fulfillment.

Education

Diploma II, Akademi Komunitas Negeri Putra Sang Fajar, Blitar

AUG 2023 — MAY 2025

Graduated Summa Cum Laude with a Diploma II degree

Diploma IV, Politeknik Negeri Malang, Malang

AUG 2024 — PRESENT

Currently pursuing a Bachelor's Applied Degree in Information Technology, specializing in Software Engineering.

Licenses & Certifications

Junior programmer, BNSP

OCT 2024 — OCT 2027

IT support, Google.inc

JAN 2022 — PRESENT
